Regarding: Comments on the Proposed Healthy Ohio 1115 Medicaid Waiver

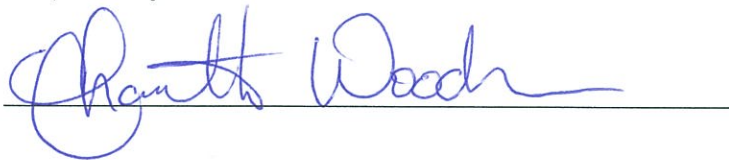

To The Honorable Secretary Sylvia Burwell:

I oppose the "Healthy Ohio" Medicaid Waiver because the proposed changes will make health care unaffordable, complicated, and challenging for me and the over one million other Ohioans on Medicaid. This proposal would hurt the recent progress Ohio has made in increasing access to quality health care.

My current Medicaid coverage allows me to receive much needed high quality primary health care at Neighborhood Family Practice, a community health center in Cleveland. I know I have a health care provider that I can see on a regular basis and who can help me maintain my health. Under "Healthy Ohio" if I can't afford to pay my premium, I will lose my health coverage which means I won't be able to receive the health care I need.

I know that I am not the only one in this situation and I urge the Center for Medicare and Medicaid Services to reject Ohio's "Healthy Ohio" Waiver request.

Respectfully,

A handwritten signature in blue ink, appearing to read "Chantel Wood", is written over a horizontal line.

Medicaid helps me... stay healthy and helps w/ payment of doctor visits and medication prescriptions.

Being insured helps me... take care of my son with his medication. Allows me to get the medicine he needs

I depend on Medicaid... because it is not affordable for me

To keep my family healthy and secure. It is very helpful with all the medications that we get prescribed. My family is always sick and depends on Medicaid to help with the doctor visits and medications to be filled and paid. I can't afford regular insurance so this has helped us a lot.

Sincerely,

Jessica Peguero
